

Reaching Out to Industry

FMCSA is committed to improving safety on our Nation's roadways. Commercial motor vehicle (CMV) drivers, owner-operators, fleet managers, fleet owners, and other commercial vehicle stakeholders are essential participants in this effort. CSA 2010 provides more effective and efficient methods for FMCSA, together with industry and State Partners, to reduce CMV crashes, fatalities, and injuries.

Key Features of the CSA 2010 Website:

- Content organized by stakeholders
- News and information updated weekly
- RSS/email updates available
- Searchable Frequently Asked Questions updated regularly
- Feedback functionality

Materials available for industry include:
